

Taiwan Symbol of Excellence Award: AAEON Receives Seven Excellent Products Award

AEC-6930: Low Power and High Performance Fanless Embedded Communication PC

- Low voltage dual core processor, low power consumption and high performance
- Dual display interfaces, DVI-I and VGA interfaces, built-in MXM DVI adapter, and supports dual displays. (When user has high-end graphic display requirements, AEC-6930 can upgrade MXM graphic module through the MXM interface and provide high performance graphic card)
- Provides quad Gigabit Ethernet LAN interfaces
- Supports two PCI slots for expansion
- Fanless system design and special heat sink fin system out-line, ideal for quiet environment
